STUDY HALL AND LUNCH				
		Cost	**Description**	**Supplies**
STUDY HALL	**Hourly classes** **9:00 am until 4:00 pm**	**Study hall hours are charged at $10 per month per study hall hour**	*Study Hall is meant to be used between two classes that a child has scheduled, or when a student must be on campus early/late because they are waiting for a sibling. It should not be scheduled as a "social hour".* *You must sign your child up for Study Hall for them to be able to stay.* ****PLEASE NOTE: If you are taking private music lessons, a free half hour of study hall time is included in your lesson time.*	**Supplies:** Bring schoolwork to do or just socialize with friends by playing board games, doing puzzles or reading books. Students may not use computers, tablets, or phones during study hall.
LUNCH	**12 noon until 1:00 pm**	**$10 per month**	*Lunch is from Noon until 1 pm. If it is nice out we will eat outside in the picnic area and then enjoy some outdoor recreation whether it's just sitting and talking with friends, playing gaga ball or basketball, or just enjoying the sunshine. On bad weather days we will eat in the study hall or gym then enjoy some inside recreation time.* *You must sign your child up for Lunch for them to be able to stay.*	**Supplies:** *We do not have a refrigerator or microwave available. Students are requested to bring a ready to eat bagged lunch and drink with them.*

In order to ensure adequate daily coverage for Lunch and Study Hall, we now have full time lunch monitors and charge a small amount for lunch and study hall periods. This is in lieu of the requirement to volunteer for lunch duty.

Parents can earn Tuition Credits by working as full time Lunch Monitors or Hall Monitors. These slots fill up fast and are not guaranteed.

You will have an opportunity to sign up as we get closer to fall.

INTRO TO VIDEO GAME DESIGN	**Intro to Video Game Design w/Javascript** **6th-12th Grade** **9:00 am TUES** *Class Limit: 12*	**$50** per month **$10** supply fee	*This course introduces students to game design and programming through hands-on, project-based learning. Students learn how to design, build, and publish their own games while exploring key programming concepts such as variables, functions, conditionals, and mouse and keyboard events. Throughout the course, students practice computational thinking as they plan, develop, test, and improve their games. By following guided, tutorial-style activities, students build three different interactive games, learning new concepts along the way. By the end of the course, students will have fully functional games they can customize, play, and share with others.*	**Supplies:** Notebook, pens, pencils Laptop or tablet with keyboard with a web browser. Older laptops are fine. *This is a beginner level class, no experience is required.*
MOBILE APP DEVELOPMENT	**Mobile App Development** **6th-12th Grade** **10:00 am TUES** *Class Limit: 12*	**$50** per month **$10** supply fee	*Mobile applications are becoming increasingly important to our consumption of media, news, social interaction, and learning. In this course, students will learn how to create mobile apps using React Native, a popular platform-agnostic framework developed by Facebook and used by successful tech companies including Airbnb, Facebook, Instagram, Tesla, and more. Students will design and build applications to run on their own smartphones and will use the latest tools and technologies available for mobile app development.*	**Supplies:** Notebook, pens, pencils Laptop or tablet with keyboard with a web browser. Older laptops are fine. ***Prerequisites:*** *The Mobile Apps course is designed for students with at least one year of coding or web design experience.*
INTERMEDIATE VIDEO GAME DESIGN IN	**Intermediate Video Game Design In Scratch** **6th-12th Grade** **11:00 am TUES** *Class Limit: 12*	**$50** per month **$10** supply fee	*This advanced-intermediate game design class pushes students to create more sophisticated and dynamic games in Scratch. Students tackle higher-level programming concepts such as complex conditionals, nested loops, custom variables, broadcast messaging, and multi-sprite interactions. Emphasis is placed on game mechanics, balance, and player experience as students design scoring systems, timers, levels, and win/lose conditions. Students are expected to plan, test, debug, and refine their projects independently while building multiple fully featured games. By the end of the course, students will produce polished, technically challenging games that demonstrate strong computational thinking and advanced problem-solving skills.*	**Supplies:** Notebook, pens, pencils Laptop or tablet with keyboard with a web browser. Older laptops are fine. ***Prerequisites:*** *The Intermediate Game Design course is designed for students with at least one year of coding or scratch experience.*
INTRO TO CODING	**Intro to Coding with Python** **6th-12th Grade** **1:00 pm TUES** *Class Limit: 12*	**$50** per month **$10** supply fee	*The Python course teaches students the basics of programming in Python. Students begin with Python commands, functions, control structures, and user interaction by solving puzzles and writing creative programs. The course is designed for complete beginners with no previous background in computer science. The course is highly visual, dynamic, and interactive, making it engaging for those new to computer science.* .	**Supplies:** Notebook, pens, pencils Laptop or tablet with keyboard with a web browser. Older laptops are fine. *This is a beginner level class, no experience is required*

ROBOTICS **Beginning and Advanced**	**Robotics** **6th -12th Grade** **1:00 pm TUES** *Class Limit: 10*	**$50** per month **$50** supply fee	*The objective of this course is to introduce the student to basic programming as well as problem solving strategies. This course will involve students in the development, building and programming of a robot. Students will work hands-on in teams to design, build, program and document their progress. Topics may include motor control, gear ratios, torque, friction, sensors, timing, program loops, logic gates, decision-making, timing sequences, propulsion systems and binary number systems. This class is designed so students can move at their own pace. Advanced students will carry on from where they left off last year.*	**Supplies:** pen and pencil **Textbook is provided to you for this class.** **Optional Cost** – Students can purchase their own robot kit for themselves to keep rather than borrow ours for an additional cost – the supply fee can be applied towards that.
DIGITAL MEDIA AN TECHNOLOGY	**Digital Media and Technology** **6th-12th Grade** **1:00 pm TUES** *Class Limit: 12*	**$50** per month **$10** supply fee	*Today's students are growing up in a fast-moving digital world where new media, platforms, and technologies shape how we communicate, learn, and work. This project-based Digital Media & Technology class equips students with essential creative and career-ready skills through hands-on media production. Students will create digital projects such as websites, animations, digital stories, presentations, graphic designs, digital illustrations, and print media while learning how to use technology effectively and responsibly. Throughout the course, students develop real-world skills used in modern schools, colleges, and workplaces, gaining both technical ability and digital literacy. By the end of the class, students will understand how digital media works and how to use it creatively, thoughtfully, and wisely in real-life settings.*	**Supplies:** Notebook, pens, pencils Students will need to provide their own laptop computers during class.
